

SmartStores Secure

**Smart and secure
stores management.**

**SmartStores Secure is the world's first
App accessed cabinet.**

Ideal for use in unmanned stores and for secure distributed satellite stores across an industrial site or hospital.

Improves accuracy, accessibility and availability within your facility, which can decrease costs whilst increasing compliance.

Operatives can go to the nearest SmartStores Secure for the products they require, cutting down on search and find time and wasted journeys.

SmartStores Secure offers fast restocking of tools, assets and consumables from the same solution with no repackaging.

As operatives issue products to themselves using the SmartStores App, inventory is decremented.

When it reaches the re-order level SmartStores Secure automatically generates a reorder requirement in Sourcerer which makes it easier for you to have the products on time from your suppliers.

Benefits

Security

- Only authorised users can access SmartStores Secure.

Efficiency

- The SmartStores App makes operation of SmartStores Secure extremely quick and easy.
- Delivers the right product, at the right time, in the right place driving greater productivity and efficiency.

- Global visibility of your inventory and assets across all sites in your business.

Feature – Secure unmanned stores with extensive features

- Access Control: the user enters a unique pin on the SmartStores App, followed by contactless smart lock access on the SmartStores Secure cabinet
- Transactions are date and time stamped.
- Records information of who, has taken what, where, when and why.
- Automatically orders across multiple suppliers
- Controls stock issues and returns to and from specific users and jobs providing complete audit logs of all inventory usage.

Why Choose SmartStores Secure?

SmartStores Secure is the lowest cost inventory management cabinet solution on the market.

SmartStores Secure helps you to take the next step in the real time reporting of stock levels with accountability and security of your inventory and assets.

Also, it can be strategically placed at Point of Use to reduce walk around time and therefore the costs associated with people obtaining inventory.

SmartStores Secure allows you to have the right product, at the right time, in the right place for your authorised users.
